**Standard message formats supported include:**

- cXML
- xCBL
- SAP XML IDOC
- Text flat file (.txt)
- OpenTrans

...and are available through the following protocols:

- » http(s)
- » AS2
- » FTP(S)
- » Email attachment file (EDI-Lite)

**e-Procurement system providers include:**

- SAP
- Oracle
- Ariba
- Hubwoo
- GHX
- SciQuest
- 50+ other B2B applications, marketplaces, or e-invoice providers

## EasyScan, quick ordering solution

VWR EasyScan is the most convenient way of ordering products for the laboratory.

Create a shopping list in minutes using barcodes generated from [vwr.com](http://vwr.com)

- Scan your items
- Connect to the computer
- Login to [vwr.com](http://vwr.com)

Upload the list from the scanner directly into your shopping basket!

All that is needed is a simple and cost effective scanner and the VWR EasyScan software.

# Lab Supplies Inventory Management powered by VSR+ technology

VWR's inventory management technology, VSR+, provides 360 degree visibility to your complete laboratory supplies inventory ... from the scientist's bench to all of the stocking locations in your supply chain.

VSR+ can be tailored to achieve your business goals. From a single room lab to large scale global operation, whether self-service or VWRCATALYST managed, VSR+ has the right solution for you.

## Increase productivity and work more efficiently with VSR+.

- Barcode supported inventory location management, picking and receiving
- Find products in any location from the lab to the stockroom
- Manage stock of any product from any supplier
- Automated order management
- Configure replenishment levels
- Automate request and approval notification
- Order confirmation and delivery notifications
- Standard reporting
- Support for a variety of the latest mobile scanning devices

## VWR SearchPad

Visibility and procurement solution from labs to all stocking locations

## VSR+ Mobile

Scan barcodes or QR codes for instant access to your entire inventory

VWR SearchPad and VWR Lab Supplies Management, VSR+ Mobile are cloud-based search interface for researchers and scientists who are currently using VWR's Laboratory Supplies Inventory Management, powered by VSR+ technology.

- Search your laboratory supplies inventory fast
- Check alternative locations when an item is out of stock at the current location
- Search results are listed by proximity

**VWR SearchPad and VSR+ Mobile requires VSR+ set-up and configuration**

# Equipment Management

## Inventory & service asset management across your entire organisation

VWR Equipment Management combines your equipment portfolio, maintenance scheduling, inventory and work order management together for quick and easy administration, tracking and decision making.

With VWR Equipment Management you can:

- Create a centralised equipment repository including photos
- Manage equipment maintenance
- Access all service records and contracts
- Store and access all equipment documentation and manuals
- View warranty information
- Quickly determine equipment location and status
- Minimise downtime
- Create service requests
- Track costs
- Report on Key Performance Indicators

### VWR Equipment Management Mobile

Keeping staff and service providers connected with equipment through mobility.

- Register new equipment including taking photos
- Identify equipment using QR codes or barcodes
- Verify the location of a piece of an equipment
